BROSZEIT WOOD MOSAIC

CREATING UNIQUE WOODEN SURFACES

If you're looking to design a varied and modern wood cladding, Broszeit WOOD MOSAIC is the perfect choice. The different designs stand out for their individuality and versatility. Whether it's wall cladding in the living room, bar paneling with indirect lighting, column coverings, or door fronts – the Broszeit WOOD MOSAIC series offers a wide range of creative possibilities. These are suitable for both new constructions and renovations.

Thanks to the high flexibility of each tile, straight, curved, and even circular surfaces can be easily and quickly created without much effort. Our installation guide shows just how simple it is to work with the Broszeit WOOD MOSAIC series. As a general rule, Broszeit WOOD MOSAIC tiles do not require surface sealing or grouting after being applied to a substrate – such as a wall.

Broszeit WOOD MOSAIC tiles are delivered in boxes containing 20 pieces each. A black fleece backing makes the tiles highly adaptable for various applications. Installation – for example on walls – is quick and straightforward. Currently, the available wood types are natural oak and smoked oak. In addition, the tiles can be customized with paint or stain, just like any solid wood surface. All in-stock Broszeit WOOD MOSAIC tiles are delivered untreated – in their raw state.
